DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 10, 24-28 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Freeman, Jr. et al.

Freeman, Jr. et al. is applied as stated in the office action mailed 01/03/01 and as stated below.

Freeman, Jr. et al. remove portions of 19 forming support structures and exposes an underlying metal layer 18 which could be characterized as a bond pad. Subsequently, conductive capping layer 23 is formed in the openings of 19 such that it contacts the bond pad 18 (Column 4). Interconnects are formed as part of the underlying IC structure (Col. 1, lines 9-27 and Col. 2, lines 16-37).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Freeman, Jr. et al. as applied to claims 1-5, 10 24-28 and 30 above, and further in view of Takiar et al.

The combination is applied as stated in the office action mailed 01/03/01.

Claims 8, 9, 29 and 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Freeman, Jr. et al. as applied to claims 1-5, 10 24-28 and 30 above, and further in view of White.

The combination is applied as stated in the office action mailed 01/03/01.

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Freeman, Jr. et al. as applied to claims 1-5, 10 24-28 and 30 above, and further in view of Hwang et al.

The combination is applied as stated in the office action mailed 01/03/01.
